

2018-19 Immunization Requirements

8th and 12th Grade

The Montgomery County Health Department is working with Montgomery County R-II Middle and High School to provide the required 8th grade and 12th grade immunizations for school attendance in the upcoming 2018-2019 school year. Required vaccines for 8th graders are Tdap and Menactra. Required vaccines for 12th graders is Menactra (Meningococcal ACWY). The health department will also be offering the following optional vaccines: MenB (Serogroup B Meningococcal), Chickenpox (Varicella), Hepatitis A, and HPV (Human Papillomavirus). MenB, Hepatitis A, and HPV are a series of two doses given 6 months apart. HPV is a series of two doses if 14 and under and a three dose series if age 15 and older. The health department will be returning to the middle and high school to give the subsequent doses.

***All students entering 8th grade must have the Meningococcal vaccine and a Tdap booster. All students entering 12th grade must have the Meningococcal vaccine. Parents must provide written proof to your school nurse BEFORE the beginning of school in the fall of 2018.** The Missouri State Law will be strictly enforced. Letters to parents were sent out at the beginning of March for students that need the required vaccinations.

In order for your child to begin Kindergarten, 8th grade and 12th grade, your child must receive the required vaccinations for school. Please contact your physician or local health department to see if your child's vaccination record is up to date. Consent forms are due 03/23/2018.

Thanks,

Jessica Fredrick, RN
